CSR/Community Engagement Commitments

At TeamViewer we EMPOWER PEOPLE TO HELP PEOPLE – A guiding principle that is intricate to all our business efforts. This is what we adhere to in our social mission, which compels us to use the innovative strengths of our company and products, to influence the world positively. We have hence committed to 4 pillars in our social endeavors:

DIVERSITY

With over 70 nationalities in our workforce, diversity is one of our core values at TeamViewer and we benefit from the creativity that results from the deliberate and random intertwining of divergent people and ideas. Thanks to different experiences and perspectives we have been able to develop ideas and products that reflect our differences – and this is what we want to see in the society and the world at large

LOCAL ENGAGEMENT

We are committed to ensuring that we stand out not only as a global player, but that the local communities benefit from our existence and performance. Hence, we strive to do all we can to be actively but apolitically involved in the communities where we are located.

EDUCATION

Companies like ours can only profit from the academic and innovative efforts of schools and higher education institutions – and so we consciously continue to support them as they strive to continue to bring further advancements to the society – through research and learning

TECHNOLOGY

As a global player in the realm of technology, TeamViewer continues to use technology to make lives easier for its users and its customers worldwide. We know that collective efforts matter, and so we are using our position to be a catalyst for purpose-driven change through technology

CSR/Community Engagement Commitments

Across these 4 pillars of our Corporate Social Responsibility strategy, we have, and will continue to commit to projects, donations, sponsorships or other kinds of joint initiatives.

Selected ongoing projects include:

	Diversity	Local Engagement	Education	Technology
Partnerships with Universities	✓	✓	✓	✓
Local social partners	✓	✓		✓
Health		✓		
Sports	✓	✓		
Schools	✓	✓	✓	✓
