

TeamViewer
Remote Management

TeamViewer Backup

Have your data available – anywhere, any time.

TeamViewer Backup

Seamlessly integrated, TeamViewer Backup provides you with simple and reliable endpoint data protection.

Deployed and activated remotely in seconds, your or your customers' data will be stored in the cloud under the highest security standards. Have peace of mind knowing your data is stored safely and remains available to you at all times.

Individual Backup Policies

Whether you are managing a single device, whole departments, or different customers, offer a backup plan that suits them best.

File Selection and Exclusion

Specify what kind of files you want to include or exclude in your backups.

Backup Cycle and Schedule

Set up your backup to be performed automatically or at specific times.

Bandwidth Throttling

Limit the throughput of traffic sent to the backup servers during set time frames.

Backup with the highest security standards.

We take the security of your stored data very seriously. Maintaining the highest security standards is our top priority.

- ✓ Client-side, military-level [256-AES encryption](#) prior to data transfer
- ✓ Data storage on [256-AES encrypted Amazon AWS S3 servers](#)
- ✓ Data center locations: Europe (5) North America (2) Asia/Oceania (5)
- ✓ [ISO/IEC 27001: 2005 Certification](#) for information security management systems
- ✓ Redundant data storage

Key Features

Endpoint Backup

Backup files and folders stored locally on your devices.

The Cloud

Store your data safely in the cloud, and have it available whenever you need it.

Remote Deployment

Have a backup running in less than a minute with just a few clicks.

Remote Restore

Restore your files from anywhere, at any time. To the original, or a new device.

Unlimited Endpoints

Your available storage will be automatically allocated across your devices.

Scalability

Purchase additional storage at any time.

Take Your IT Service Management to the Next Level.
